### **Middle Level Endorsement Courses**

We at the VT-HEC are very excited to announce that beginning in the fall of 2014 VT-HEC's program Teaching All Secondary Students (TASS) will begin offering courses required for middle grades licensing endorsement. TASS is the VT-HEC program that supports middle and high schools in their efforts to improve outcomes for all students.

The first course will be Adolescent Development and will be taught in the fall by **Susie Girardin**. Susie is a middle grades specialist who has worked in middle schools and with middle school teachers for 40 years. She is a leadership and teacher coach for TASS and is also part of the design team for the TASS teacher leader Certificate of Learning Design program. Susie has taught all of the courses in the middle school sequence and will be working to coordinate the VT-HEC/TASS middle school sequence. The course planned for the spring is Literacy Across the Curriculum.

Registration will open in August. Check our website for details:
