Personalized Learning in Middle School 9-14 Year Olds

Presenter: Susie Girardin

Repetitive tasks, rote learning and fact memorization no longer belongs in the 21st century classroom for early adolescents. We need innovative, creative thinkers who can apply what they know and understand to new challenges in collaboration with others.

This active and hands-on workshop is designed for middle level educators who would like to learn more about the following for themselves and their schools:

- Act 77, VT AOE's requirement for PLP's
- Goal-setting, collecting evidence, and reporting out
- Mindset pedagogy and its relationship to personalization
- Student self-assessment: examples
- Reflection and its importance in journals and logs
