## • Rethinking IEP Development •

**Presenter: Jen Patenaude**

This workshop will be designed to review best practices related to IEP development. An emphasis will be placed upon discussing how to use both evaluation information and current classroom assessment data to identify present levels of performance which is essential to making decisions about service delivery and identifying standards based goals/objectives. In addition, access barriers related to varying learning profiles will be discussed to insure that appropriate accommodations/modifications are considered.
