• Cognitive Profile Analysis for Struggling Learners: Advanced Assessment Topics •

Presenter: Jen Patenaude

If you are interested in learning how to use comprehensive evaluation information to deepen your understanding of varied learning disability profiles to provide more diagnostic, targeted programming, this workshop is for you! An overview/ comparison of most current measures of cognitive abilities, discussion of the causal relationship between cognitive and academic achievement abilities, selective decisions for choosing the tools that best align with evaluation concerns, and review of common learning disability profiles and suggestions for subsequent program planning will be covered. This workshop is designed for experienced practitioners with a solid foundational understanding of norm referenced assessments and comprehensive evaluations.

Dates: April 14th and 15th, 2016
(must attend both sessions)

Place: Capitol Plaza, Montpelier, VT

Cost: \$350 per person
(lunches included)

Time: 8:30-3:30
