Using Neuroscience to Make Standards Work for ALL Students

*WORKshop Designed by Bill Rich
for Middle & High School Educators & Leaders*

Data-Tools to Keep You in Sync with Your Students

Imagine a suite of simple tools that would organize all your assignments & students' work in one place, enable you to give more timely feedback to your students, and provide you with summaries of the progress of individuals and classes. After experiencing the power of a range of tools that teachers use to stay in sync with their learners, participants will choose one to learn more about in preparation to use the tool this school year.

Date: May 4, 2016
Time: 9:00-3:00
Location: Capitol Plaza,
Montpelier, VT
Cost: \$175
