

• Integrating Technology Tools to Maximize Learning •

Instructor: Chris CichoskiKelly

"Your Google Tools course last summer was one of the best courses I've ever taken." Participant from Summer 2016

Technology tools can help you design lessons, track learning targets and outcomes, develop assessments, organize data, and help inform your community about your school.

Learn about Google Classroom, various online engaging and time saving assessment tools, and social media that is available to educators and how they can help improve your students' learning and engagement. As we work, we will practice and learn how to tailor them to your needs in order to make your teaching more effective and efficient. Special guest Mike Berry will join us one day to share his expertise using social media and dissemination tools to keep families up to date with what is going on in your school.

With support from the instructor, final projects will incorporate new learning into your teaching this fall. Come learn how tech tools can help you become more organized, efficient and effective as an educator!

Dates: August 7-11, 2017 and a follow-up October 28, 2017

Place: Best Western - Waterbury, VT

Cost: \$1590 (3 credits - Marlboro College)

Time: 8:30 - 3:00
