

The Vermont Higher Education Collaborative Presents

## ***Two online graduate courses for K – 12 Mathematics Educators***

### **Math for the Struggling Learner, K – 8:**

*Research-based practices for helping  
all students succeed*

*Instructor: Regina Quinn*

*Where: U32, Montpelier (2/11 and 3/31) & online*

*Join other Vermont educators and instructor Regina Quinn  
in delving into research that will help answer the questions:*

***How can I help my students who struggle in math?***

***How can I apply cognitive research to support  
students with mathematics  
learning difficulties or disabilities?***

***Register  
now  
on our  
website:***

### **Improving Math Instruction Grades 6-12:**

*Cognitive Research meets  
the Common Core*

*Instructor: Julie Conrad*

*Where: U32, Montpelier (1/28) & online*

*Join other Vermont educators and instructor Julie Conrad  
in delving into research that will help answer the question:*

***How do the developments in cognitive science and  
the Common Core State Standards in Mathematics  
interact to improve mathematical  
instruction and learning?***
