Use built-in tools on your smartphone or tablet to quickly create efficient and effective learning opportunities for your students

Presenters: Chris Knippenberg & Patty Thomas

Who should attend: Teachers, special educators, parents, community providers, related service providers, paraeducators, behavior specialists, employment coaches, and others

Visual information is a powerful tool to support understanding, self-regulation, and participation across home, school, work, and community for individuals with a variety of learning challenges. This day-long, hands-on workshop will teach participants how to use the photo and video functions on smartphones or tablets to create supports such as choice boards, task routines, social stories, and visual journals.

Participants will plan and create a number of different digital visual solutions and will leave with templates as well as materials that they can use immediately in their setting. A smartphone or tablet with video capability is required. Specifications will be sent upon registration.

- Date:** December 15, 2017
- Time:** 8:30-3:30
- Place:** Capitol Plaza, Montpelier, VT
- Cost:** \$190 (includes lunch)

Please inquire with Capitol Plaza reservations (802-223-5252) about discounted hotel rates for the evening prior to this event.
