• Technology for Formative and Real Time Assessment in the Classroom • Workshops with Course Option

Presenter: Chris CichoskiKelly

Who should attend? K-12 teachers, special educators and administrators

These hands-on workshops which can be taken separately, together, or as a four-day 3 credit course, will focus on many technology tools you and your students can use to assess student learning, as well as how to match the best technology tool with the various types of assessments we use.

Day One: We will explore Google Forms, Sheets, and grading with Forms; Goobric; Flubaroo; Kahoot; and technology to support the creation of checklists and rubrics.

Day Two: We will focus on Google Forms, Sheets and automatically color coding your responses; PlayPosit; Socrative; Quizlet; Plickers; Excel and Graphing; and technology to support the creation of learning scales.

Please bring ideas of assessments you want to create, as you will have the support and time to create them

COMMENTS FROM CHRIS' PREVIOUS WORKSHOPS...

"I HAD SUCH A LARGE LEARNING CURVE AND NOW FEEL THAT I HAVE INCORPORATED THE MAJORITY OF THE TOOLS I WAS EXPOSED TO FOR THE BENEFIT OF MYSELF AND MY STUDENTS."

"THE KNOWLEDGE I GAINED HAS BEEN SO INCREDIBLY USEFUL AND I CAN SEE THAT IT WILL CLEARLY BENEFIT THE STUDENTS."

"THE CONTENT HAD IMMEDIATE PRACTICAL IMPLICATIONS FOR MY JOB."

"ONE OF THE BEST CONFERENCES I HAVE BEEN TO IN A LONG TIME."
